RSF 19	<ul style="list-style-type: none"> Population of wild birds (Trend: Neutral/unchanged , RSF Target: N/A) Condition of sites of special scientific interest (Trend: Neutral/unchanged , RSF Target: Achieved) Extent and condition of key habitats for which biodiversity action plans have been established (Target: Neutral/unchanged , RSF Target: N/A) 	<i>What is the anticipated effect/issue?</i> <ul style="list-style-type: none"> This policy may not be in agreement with RSF 19 	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	<i>Data:</i> <ul style="list-style-type: none"> Population of wild birds Condition of sites of special scientific interest Extent and condition of key habitats for which biodiversity action plans have been established 	LP	-	I	This policy may have an adverse effect on RSF 19 depending on the way development is structured , for example through increases in air pollution affecting biodiversity

Note 1 **Duration** refers to whether the anticipated effect is a short (S), medium (M) or long (L) term one, and whether it is expected to be permanent (P) or temporary (T).

Note 2 **Consequence** refers to whether the anticipated effect will be a significantly beneficial (++), beneficial (+), neutral (0), adverse (-) or significantly adverse (--).one.

Note 3 **Status** refers to whether the anticipated effect will be direct (D), indirect (I), cumulative (C) or synergistic (S).

Note 4 **PPPP can definitely do**; **PPPP could do, subject to limits or further investigation thereof**; **PPPP can't do, but others can**

Impact Assessment Matrix 1: Effect and Impact Identification

Plan, policy, programme or project under assessment:		3. Housing Numbers		Assessment ID: F44.13.004				
Sub- plan, policy, programme or project under assessment:		3.14. On suitable sites within Runnymede's urban areas the council will enable and deliver a minimum of 2500 net new dwellings specifically on the former DERA site at Longcross between 2016-2026						
Will implementation of the proposed strategic option, policy or action affect the sustainability of the Borough...		Brief description & character of the anticipated effect						
SA/SEA Objectives	Indicators / Targets /Trends <i>(see Scoping Report for full description)</i>	Description of Effect/Issue	Can the effect be quantified? <i>(if yes, insert data reference)</i>	Characterisation of Effect			Comments including recommendations for minor effect mitigation & enhancement <i>(See Note 4)</i>
